Hands-free wireless perio charting

▶ See reverse side for the clean computing promotional bundle price!

Make infection control easy with clean computing products from Patterson Dental!

## ■ Mini operatory computer

This powerful, yet quiet mini operatory computer can be hidden inside cabinets and is suitable for the most intensive digital imaging applications.

## ■ AG Neovo DR17 monitor – a Patterson exclusive

The AG Neovo DR17's low voltage medical-grade power supply is essential for dental applications to safely stabilize the electric current, especially under wet-area operating room environments. Rugged optical glass protects the display against incidental damage and, most importantly, allows for easy, clean and safe sanitization and thorough disinfection between patients.

## ■ Cleankeys wireless keyboard

Welcome to the wipeable, waterproof and wireless world of Cleankeys®. One spray, one wipe – that's all it takes to keep dirt and bacteria off its surface. It's the infection control solution dentists around the world have been waiting for.

### **CLEAN BUNDLE PROMO**

For a limited time, purchase all three items above for only \$2,995 – Ask how to get this bundle **FREE** with the purchase of Eaglesoft practice management software!

## ■ Optional dental R.A.T.

Ask about this hands-free wireless perio-charting device that can easily improve patient care and staff productivity. Add it to the clean computing bundle for only \$1,295
